

Dear Parent/Guardian,

Garland ISD Student Nutrition Services (SNS) must have a Dietary Modification Form or IEP on file if a student meal accommodation is required. A new Diet Modification Form is not required for each school year if the meal accommodation remains the same.

For newly enrolling/enrolled students requiring a dietary modification, the form may be found here:

[Special dietary needs | Garland Independent School District garlandisd.net](https://www.garlandisd.net/special-dietary-needs)

*Garland ISD is committed to providing a safe environment for your child at school.*

The following step must be taken in order for an account alert in the cafeteria to generate and/or make any substitutions to your child's meal choices.

The Diet Modification Request Form must be filled out in its entirety by a licensed physician. The physician must identify:

- The student's disability that restricts their diet
- The major life activity affected by the disability
- The foods that must be omitted from the student's diet and the food or choice of foods that must be substituted.

Once the Diet Modification Form has been completed by a physician, please return the form to the school nurse.

- Please allow up to 48 hours for the dietary modification request to be fulfilled at the student's campus.

#### Removing dietary modifications

A second Diet Modification Request Form, an official doctor's note on their letterhead **or** a signed statement from the parent/guardian indicating that the student no longer needs a meal accommodation must be submitted to Garland ISD SNS prior to the termination of the accommodation.

#### Diet modifications for students without a disability

Review the menu via [SchoolCafé - GARLAND ISD \(schoolcafe.com\)](https://www.schoolcafe.com) with your child so that they understand which choices are available from the cafeteria.

Circumstances in which students without disability, but in need of a special dietary modification may contact the Student Nutrition Services. Modifications in these situations will be determined by the Menu Coordinator on a case-by-case basis.

If you would like to speak to the district Menu Coordinator before submitting the diet modification form, please see the contact information below.
