QUESTION	RESPONSE
<p>For “Annual licensing fee behavioral threat assessment program,” most threat assessment models, including those offered with our training and digital case management platform, recommend <u>multiple team members from each campus</u> become a part of a threat assessment team (e.g., safety / security representatives on each campus). We refer to “6 annual licenses” from the RFP and this does not reconcile with the concept of a district wide threat assessment program (e.g., 85 campuses would suggest a minimum of 160 trained participants). Do you intend for a Behavioral Threat Assessment program to be applied across all campuses within the district with training and a digital case management platform?</p>	<p>It is our intention to use this management system, with training across the district. If not, we hope the system is equipped with online training and a link that allows campuses to submit information for input.</p> <p>For the purpose of pricing, price for 6 licenses and identify the discounts that would be available to increase up to 160 licenses.</p>
