**1. QUESTION:**

In regards to 9.05: How are they installing the panels? With poly it will warp, and if they are needing 55”W X 58”H, we only provide our continuous aluminum brackets for rigidity.

So, would we need to include brackets in the bid with the panels, and would that be added as a side note in the description?

**RESPONSE:**

Yes, any additional brackets must be included in the bid and noted, along with continuous aluminum brackets at the bottom of the polymer panel.
